

Press Release

Online 11th Aachen Colloquium China Sustainable Mobility November 18th - 19th, 2021

November 2021

Professor Stefan Pischinger (Chair of Thermodynamics of Mobile Energy Conversion Systems, RWTH Aachen University) and Professor Lutz Eckstein (Institute for Automotive Engineering, RWTH Aachen University) want to announce the **Online 11th Aachen Colloquium China Sustainable Mobility**. The conference takes place as a digital event from November 18th to 19th, 2021. This year, the organizers are looking forward to welcome numerous engineering executives and technical experts during the online event. It serves as a platform for discussions, for example about future mobility, new energy vehicles, automated driving, and high-efficiency engines as well as strategy concepts. The 11th Aachen Colloquium China offers more than 40 presentations, held by speakers from international leading OEMs and suppliers. All the lectures will be translated simultaneously Chinese ↔ English and English ↔ Chinese.

Moreover, the organizing team was able to win high-ranking keynote speakers. In the plenary session on November 18th, starting at 8.30 am (CST), Dr. Wenfeng Zhan, Director Engine Department at GAC Automotive R&D Center, will talk about the GAC's New Generation High Performance Hybrid Powertrain System. Mr. Michael Hofmann, Executive Vice President R&D at Audi China, will follow to present Electromobility as Opportunity and Driver for Growth. Mr. Johannes Dehn, Plant Manager at Bosch Powertrain Systems Co., Ltd. China, will complete the plenary session with a presentation about the "Mobility of the Future". A joint discussion offers the audience the possibility to discuss the plenary speeches.

The Aachen Colloquium China has its roots in the largest and most important conference on automobile and propulsion technology in Europe, the Aachen Colloquium Sustainable Mobility. Its organizers are the Chair of Thermodynamics of Mobile Energy Conversion Systems (tme) and the Institute for Automotive Engineering (ika), both renowned institutes of RWTH Aachen University in Germany. This year, the Colloquium in Germany took place for the 30th time and provides the foundation for the Aachen Colloquium China.

We hope you are all well and are looking forward to welcome you online to the 11th Aachen Colloquium Sustainable Mobility 2021.
